Dear Parent,

Greetings from Delhi Public School, Nadergul. School has come up with an interesting project for Term – 2 called the Independent Research Project (IRP). The objective behind this initiative is to allow children peep in to research from a young age.

The topics decided at each level are completely research based and the child is expected to find out his/her own analysis to the questions asked. We request you to help your child step in to this new foray of inquiry based learning. Each child has to submit the project by the end of January, 2019. The project has to be submitted written in A4 sheets with a proper index, bibliography. The minimum page limit to submit the project for students of grades 1 – 3 is 10, grades 4-5 is 15 and grades 6 – 8 is 20. The children who submit will also be presenting the same in front of an audience. The marks allotted for this project will be taken as part of subject enrichment grades for PA4. Please find the topics grade wise listed below.

Grade 1: Do you think animals also have a language to communicate? If you have a pet do you communicate with it? Taking the help of your parents try to find out more about animals and their mode of communication. Paste pictures at relevant places.

Grade 2: The homes (nests) of birds are wonderful creations in nature. With the help of your parents research and try to find more about different nests in different parts of the world. Paste pictures or draw where ever required. You can also make some sample nests using scrap material.

Grade 3: From the earlier times to the present the world economy is connected. With the help of your parents research and find out the different currencies of the world. Tabulate the comparison with the Indian Rupee.

Grade 4: Research and find out more about CHANDRAYAN – A mission to moon. Do you think this is an alternative home to humans? Do you support missions like this?

Grade 5: Research and find out more about GPRS and Communication Satellites all around the world. Do you think this is an invasion in to one's privacy?

Grade 6: Research and find out more about the International Space Station.

Grade 7: Research and find out more about stem cell banking. Is this an answer to mankind's future health?

Grade 8: Research and comment on whether the need of the hour is DEMOCRACY or MONARCHY.

For any further clarifications contact your respective coordinators.
